

# YOU'RE INVITED!

## VALUATION & TRANSACTIONS of ENERGY & ENVIRONMENTAL ASSETS

LANDU Course | 16 ALC Credit Hours | Colorado Continuing Education Credit 8 hours

Land agents will learn about various environmental assets and how to value them during land transactions, such as oil and gas, solar, wind, carbon, mining, broadband, cell towers, and conservation easements.

### After taking this course, attendees will have the:

- **Knowledge** to understand different types of land resources and the complexity of each type of land resource deal;
- **Competence** to estimate the market value of land resources;
- **Confidence** to demonstrate how to access good comp data;
- **Expertise** to indicate how to sever mineral rights from surface rights;
- **Knowledge** to explain the vast variety of conservation easements and why a landowner may want to have one or more of these on their property.

Questions? Contact Maggie.
